

The fact that the NAB's petition 04-160 could even be processed as an idea is unbelievable. XM radio is a service that I pay for..i pay \$10 a month for wonderful entertainment ...which includes traffic and weather and it makes me sick to think that the National Association of Broadcasters is trying to limit XM in any way. XM is an extremely unique service that I am more than happy to pay for because of the variety that is hard to find anywhere else, i guarentee you that if this is passed XM will lose many consumers because the enire basis of what XM is about will be lost.
